Category Performance Breakdown

Clothing

$104K revenue

Dominant revenue driver

Accessories

$74K revenue

Second highest performer

Footwear

$36K revenue

Steady contributor

Outerwear

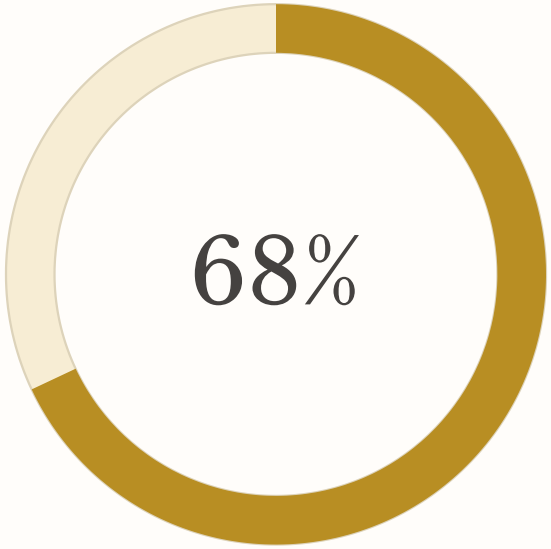
$19K revenue

Lowest performer

Clothing should remain the primary focus for inventory expansion and marketing efforts.

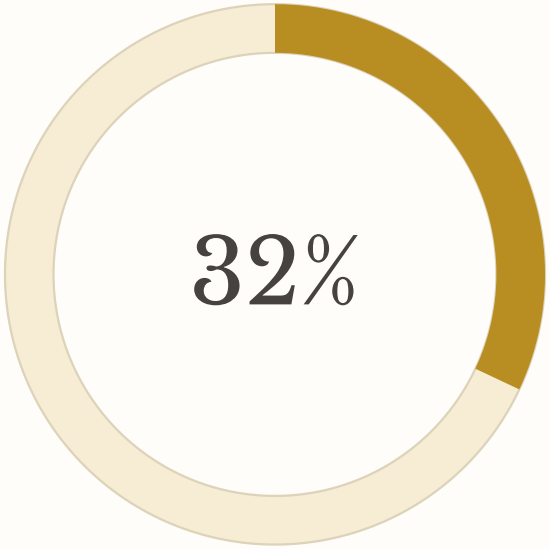
Made with GAMMA

Customer Demographics



Male Customers

Form the majority of the customer base



Female Customers

Smaller but significant segment

Despite demographic dominance, product demand leans toward items typically associated with female preferences, suggesting **cross-gender purchasing behavior** such as gifting or household purchases.

Made with GAMMA

Product Preference Insights

Diversified Demand

Revenue is **evenly distributed across products**, especially within the Clothing category, indicating diversified demand rather than reliance on a single product.

Key Product Lines

- Blouse
- Shirt
- Dress
- Pants
- Jewelry

Made with GAMMA

Customer Behavior & Loyalty

Previous Purchases

Customers with more purchase history

Higher Spending

Tend to spend more per transaction

Customer Loyalty

Indicates strong loyalty and higher lifetime value

Made with GAMMA

Shipping & Satisfaction Performance

Free Shipping Preferred

Generated ~$41K, most preferred option with strong influence on purchasing decisions. Other methods (Express, Store Pickup, Standard) contribute ~$38-39K each.

Moderate Satisfaction

Average rating of **3.8 out of 5**. Service quality and product experience improvements could enhance ratings and customer retention.
